

GRISWOLD™ Rubber 2144, 3131, 4131 and 4134 products meet the requirements of 21 CFR 177.2600 Rubber Articles intended for repeated use, section (d), for use with dry food. No testing is done for compliance to sections (e) or (f) regarding the use of this product for aqueous or fatty foods and no compliance to these sections of the standard is made or implied.

This statement is made based on verification that materials used to produce these products are included in one of the following 21 CFR lists:

- 21 CFR 177 – Substances for use only as components of articles intended for repeated use
- 21 CFR 177.2600 – Rubber articles intended for repeated use
- 21 CFR 182 – Substances generally recognized as safe
- 21 CFR 184 – Direct food substances affirmed as generally recognized as safe
- 21 CFR 186 – Indirect food substances affirmed as generally recognized as safe
